Luxury Suites

There's no place like Home

A

*man's home is his castle.
Home sweet home.
Home is where you hang your hat.
There's no place like home.*

The word "home" can mean a lot of different things to a lot of different people. For those of us who live our lives on the road, "home" becomes pretty important after a long day's work. A DRV Luxury Suite is designed to do just that, be a "home" for you that is completely customized by you to assure you the most comfort that you can get from "living on the road". A home your whole family and friends are comfortable in, that's customized exactly the way you need it to be.

Imagine this:

You come home after a day spent out in the freezing, howling wind to a fire in the fireplace and a fully stocked, four-door fridge. You kick back in your recliner and watch the game on your big flat screen TV in Bose® surround sound. Dinner is a snap to prepare in the spacious kitchen with tons of counter and pantry space and a center island. After dinner, you get an amazing night's sleep in your comfy, king bed and the next day, you're ready to tackle the job again.

That's what "home" feels like in a DRV.

DRV, based in Howe, Indiana, is the premiere manufacturer of luxury RV Suites for pipeliners because of their commitment to solid, quality building materials, semi-customizable floor plans, and the unparalleled year-round protection and comfort provided by their Canadian all-weather package. Featuring dual furnaces and 3 ¼"-thick R-16 sidewalls on R-25 roof and R-29 basement insulation, these are truly engineered for all climates.

No detail is overlooked in the design and construction of a DRV.

Fully Customizable Floor Plans

Wish you could get out of those dirty clothes before you get inside? Put a mud room at the entrance and drop those clothes in laundry before you track dirt inside.

Enlarge the living space and kitchen, and customize your dream home.

Going solo? Splurge on a total home entertainment package.

Unbelievable Storage

You have a lot of stuff, and you can take it all with you with more storage than you ever thought was possible: under-seat storage in the dinette chairs, cedar-lined closet with a built-in shoe rack, huge pantry with adjustable shelving, tons of basement storage space, built-in floor safe, and easy-access under-bed storage.

Quality of Construction and Furnishings

Kodiak® automotive-style disc brakes, heavy duty Goodyear® tires, Equa-Flex® suspension, "Sub Zero" Thermal Pack with high density wool insulation, and DRV's exclusive Canadian All-Weather Package (twin 30,000 BTU furnaces with heat pads on all holding tanks and elbow heaters on drain pipes) means you travel in safety and comfort.

Solid hardwood cabinets and Corian® countertops, GE® appliances and residential furniture are just a few of the standard features you can expect from DRV.

Ease of Set-Up

DRV's "Level-Up"™ leveling system makes set-up quick and effortless with one touch activation of six powerful stabilizer legs which automatically level your coach using dependable hydraulics.

Home Sweet Home

Whether you live alone or are traveling with your family, there's a DRV that's the perfect home for you. Purchasing a DRV means you work one-on-one with someone who wants to help design the perfect home for YOU.
